

Online Pediatric Brain Tumor Support Groups

Listservs are online discussion groups where people with a common interest/problem can go to share information and support. The following are brain tumor-related listservs known to BTFC, listed by tumor type or condition.

Due to the changing nature of the Internet and the changing nature of medicine, the accuracy of any information obtained from members of these online discussion groups should be reviewed with your health care team. The Brain Tumor Foundation for Children is not affiliated with, nor does it endorse any of these groups and cannot guarantee the accuracy of information found there. Always consult with your healthcare provider should you have questions regarding your child's treatment. Also, please note that by clicking on these links you are leaving the BTFC site and entering the site of another entity and that we have no control, responsibility, liability, etc., in relation to the content and activities of the sites being linked.
